**With the support of:**

Co-funded by the  
Erasmus+ Programme  
of the European Union

## Background & Context

---

**DYPALL** stands for **Developing Youth Participation at Local Level**, and as a network, it started its development in 2011, with the purpose of fostering the potential of young people to be active citizens and actors of real social change in their local communities, as well as in their regional and international realities.

Our experience strengthened our belief that involving young people in decision making is a key driver to empower them and to increase their

sense of belonging and active citizenship. This involvement should include not only the support from local authorities to activities targeting young people, but also a broader dimension, where youth has an active voice and is a fundamental actor of the development of their local communities.

The network itself is built on the principles of creating an effective and sustainable involvement of youth on decision-making with and in cooperation with local authority's demands, as well as willingness and commitment from both parties, but also the development of knowledge, sharing of experience and tools to create and to develop further these spaces of shared decision-making. This demands the development of strategies, building structures and relations of trust and cooperation between actors. This necessity and the similar experiences of several partners, made visible the common need to **establish a network that could work in a stable and systematic way on themes of common interest and strengthen the cooperation among local authorities (LA), civil society organizations (CSO) and young people, where the creation of mutual understanding and learning spaces are the main goals.**

Among a wide range of diverse but complementary activities implemented by and with its members, DYPALL Network has involved and strengthened the cooperation among municipalities and organisations working in the field of youth at local level. These initiatives and all the different local, national and European experiences strengthened our common understanding that it is crucial to develop a new culture of youth participation, especially regarding the decision-making processes on issues of direct concern and interest of youth. It is essential to look at youth as a forceful and creative source of solutions for our societies that can largely contribute for their sustainable development.

## Training Course

---

This is the third edition of Young Migrant Voices - a training course for boosting participation of young migrants in decision-making processes at local level. It is designed for youth workers, youth municipality officers and youth leaders from Sweden, Portugal, Italy, Germany, Slovenia,

Young Migrant Voices aims at addressing the gap of participation of migrant youth in the political and social decision-making processes within their communities of destination.

With this purpose, this Training Course is designed for civil society representatives and local public servants working with youth related issues, who want to enhance their skills on how to motivate and actively involve young migrants and youth with migrant background, in the improvement of the communities where they live.
