HOSTING CURIOSITY

NENENENENN CONTENT

Our programme consists of

a pool of trainers,

highly qualified and professional educators with great knowledge of **inclusive and collaborative didactics** that prepare, implement and evaluate various educational activities and programmes.

In the last year, we have successfully conducted more than 15 training sessions on cultural management, a summer school named Design.science, together with the University of Ljubljana, and included more than 80 young people in on-the-job training as part of the "Nurturing the world" initiative.

NENENENNENN 2121121121121121 BUILDING NETWORKS

Tor many years, we have been the Europe Direct Information Centre (EDIC), the regional hub of NGOs, youth center, and in 2022,

we have become a CERV National Contact Point.

We have more than 1500 yearly visitors to our center,

which is hosting more than 50 educational, networking and information events annually.

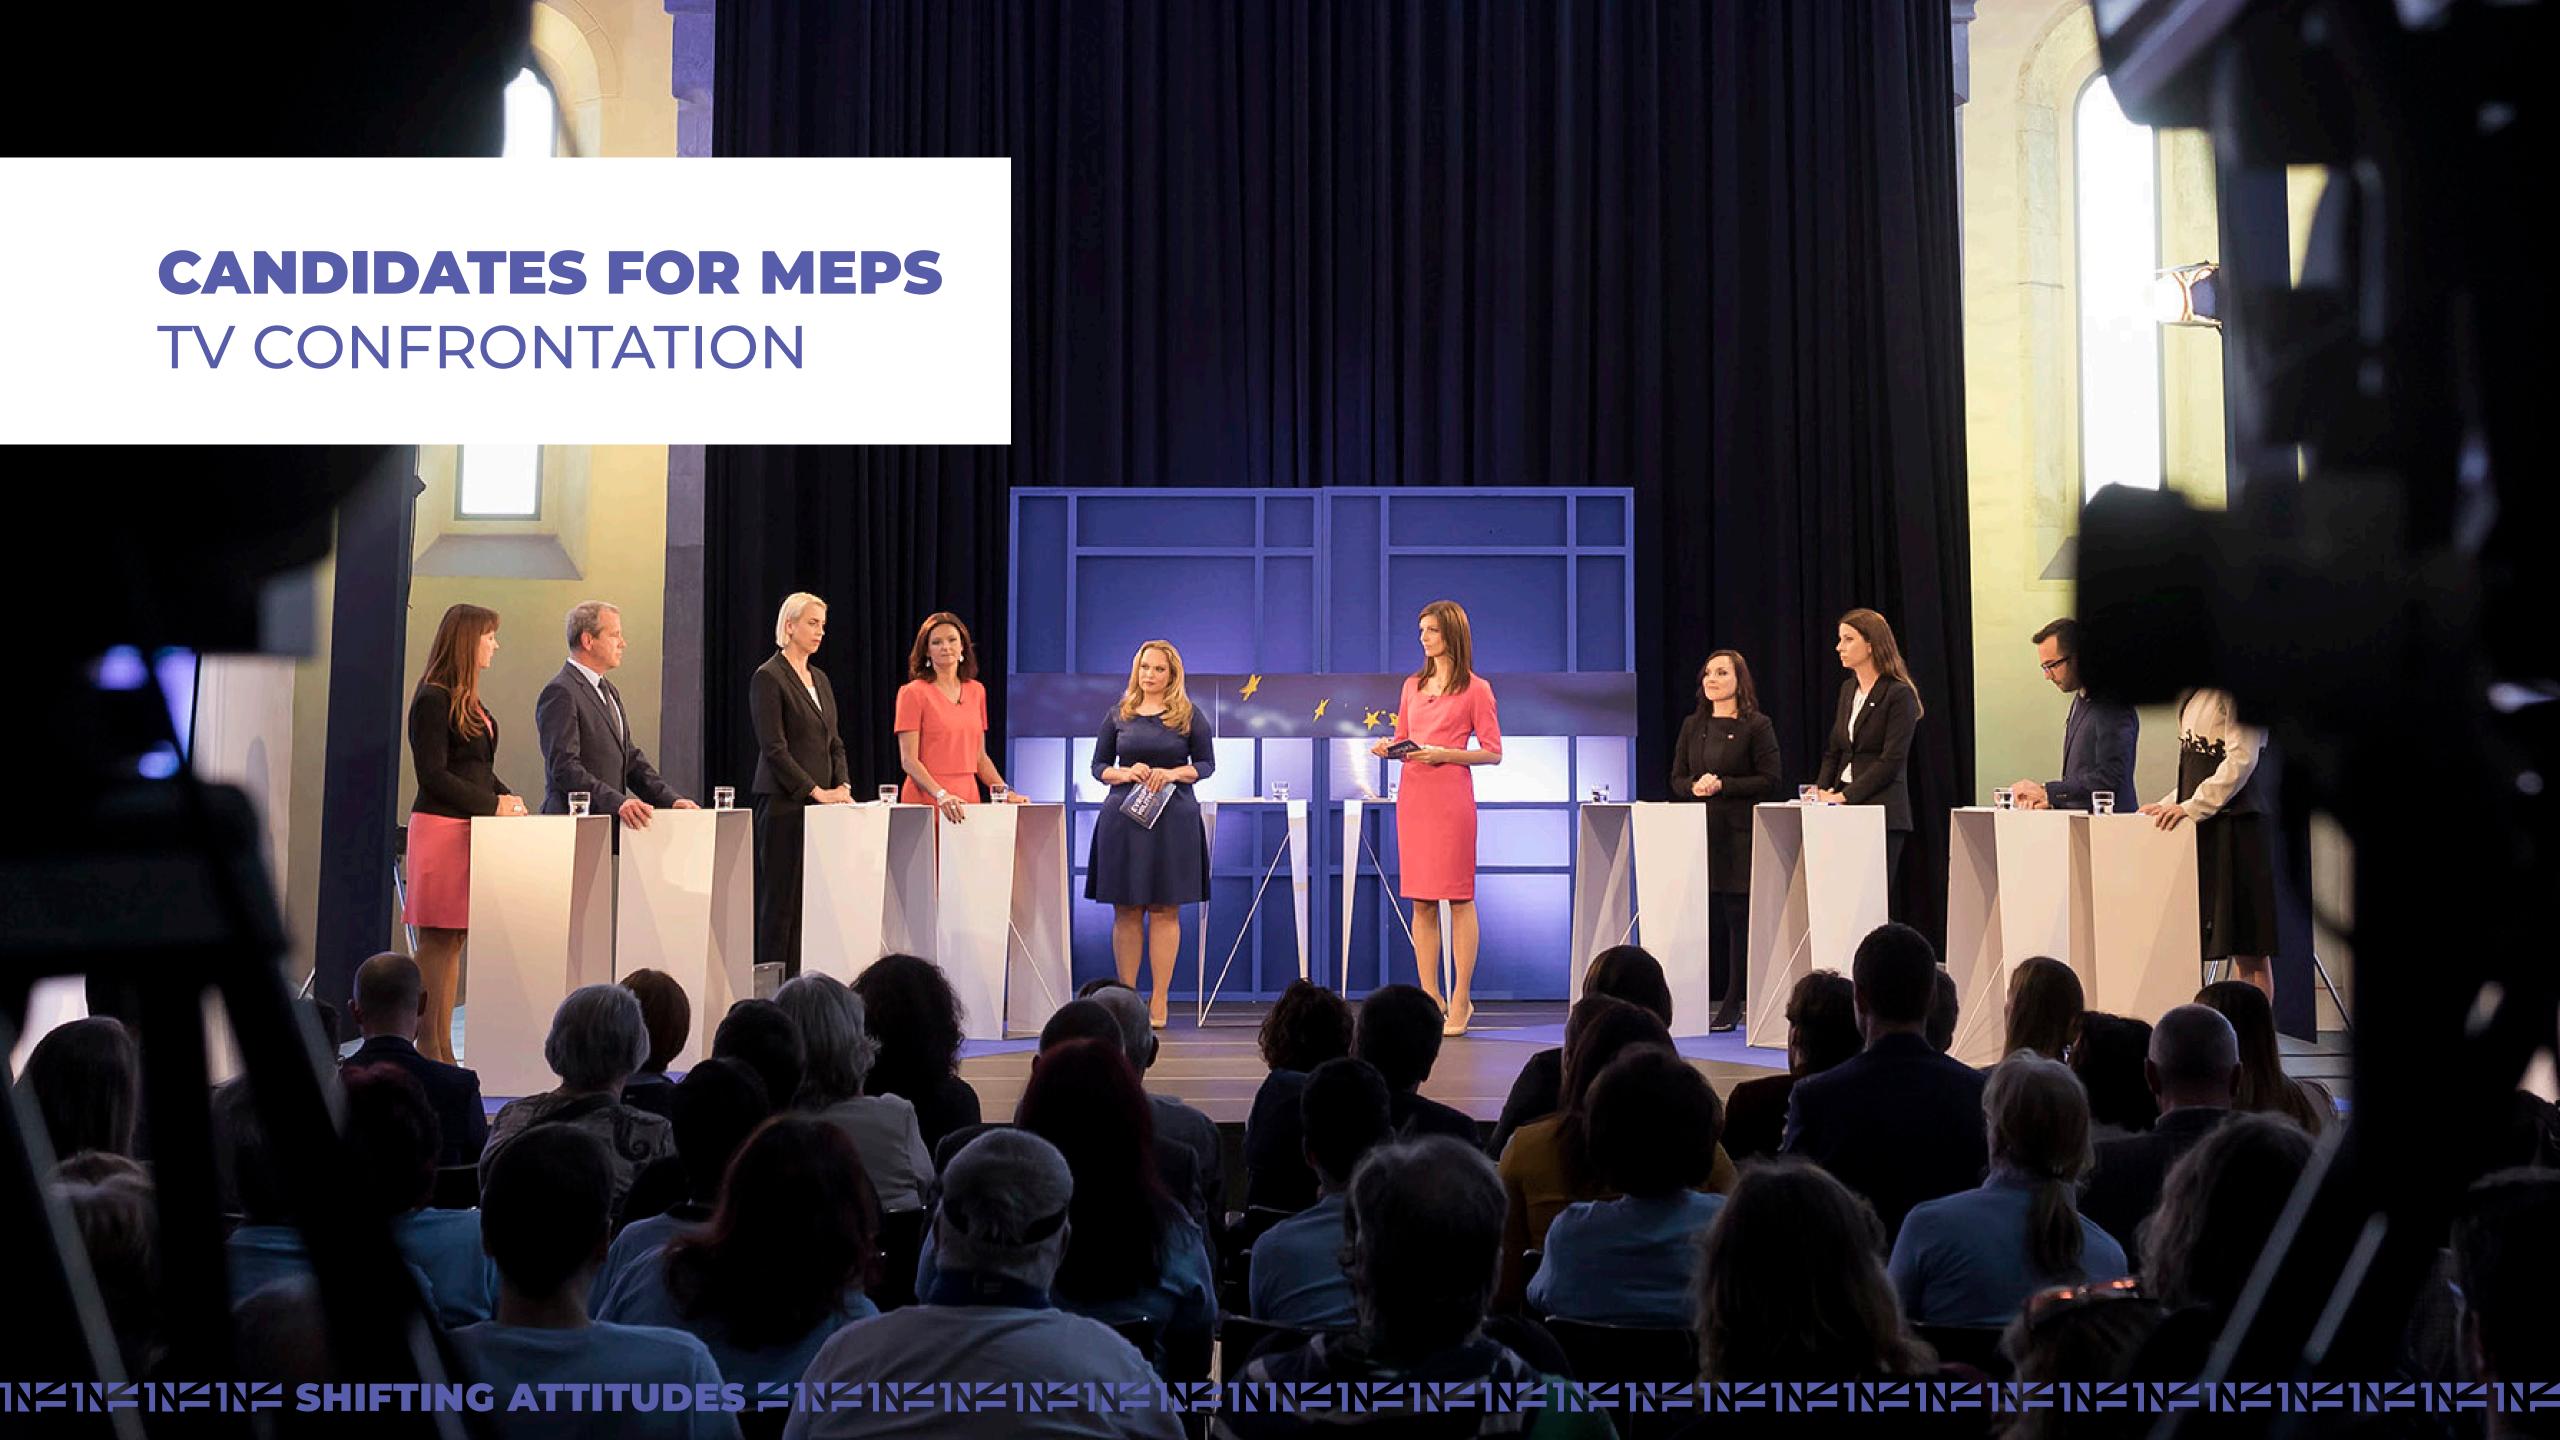

NAME IN THE SHIFTING ATTITUDES

On our own, or in collaboration with external contractors, we often run larger communication campaigns, and over the years, we have established excellent connections with many media and advertising space providers.

With our content on our channels alone, we reach more than 200,000 people a year, who respond positively to the content.

NAME IN THE SCIENCE SENSEMAKING

We use and advocate for **citizens' science approach**, play with artistic presentations of research findings and add elements of **creativity to research** actions.

In 2021 we opened **laboratory HEKA**, allowing researchers, students and artists to explore and experiment in the form of **internships and residencies**. We organize **festivals** where artists and researchers can present their work and provide **opportunities for contact** between the research and the citizens.

NEAR THE SUPPORT AND FOSTERING DIALOGUE ON

We are known as reliable advocates for participatory policy creation.

We have become a key player in participatory budgeting and spatial planning, such as the mass planning of the future of the Slovenian coast

"Draw the Coast" or workshops to verify the strategic objectives of the municipal spatial plan of Piran and Koper.

PiNA is a reliable partner in the field of culture, education and social innovation, bringing added value to the complex structures of international and local projects.

Their best feature is that they never stop at the dot, but always go over ...

doc. dr. Jani Kozina, Anton Melik Geographical Institute

Association for Culture and Education – PiNA has been an extended term of the European Commission Representation in Slovenia for many years.

They are a reliable and professional partner who, through various activities, addresses EU issues in the coastal karst region and encourages residents to become active citizens.

They reliably and with quality organize professional discussions, popular conversation evenings, interactive presentations on the functioning of the EU in schools, television confrontations and other events.

European Commission Representation in Slovenia

Working with PiNA is always fun, but of course also professional and useful.

PiNA is an indispensable partner in the local environment, which often takes on a connecting role and is the engine of change.

From every collaboration with PiNA, a good success story is always born.

Great physical/digital facilities that present a safe, inclusive and positive learning environment.

Highly trained educators that have more than 7 years of experience with participatory processes.

Knowledge about planning

inclusive and participatory public interactions,

especially in the field of public budgeting and spatial planning.

Experienced team of project managers that have successfully implemented projects, supported by programs Interreg, EEA & Norway Grants, Erasmus+, Creative Europe and Europe for Citizens.
